By The Associated Press
WASHINGTON, March 29 — RAF bombers executed their assault on Berlin Saturday night, the greatest raid of the war, according to the base at St. Nazaire, France, which was heavily damaged.

The German radio meanwhile announced that German bombers had been shot down by the RAF yesterday.

Quick Raid on England
The German radio announced that German bombers had been shot down by the RAF yesterday.

Rescue workers began digging in the wreckage for members of the staff and any pupils who might have been trapped there.

Authorities said two enemy aircraft were destroyed during the night raids on Britain.

The great load of almost 900 tons of bombs hurled down on Berlin Saturday night was almost double the heaviest total of explosives and incendiaries the German air force dropped on London in its heaviest attack.

The German high command announced a broadcast from Berlin and recorded by The Associated Press, said allied air attacks against occupied western territory caused "heavy losses" among the population.

The communistic claimed destruction of 18 planes there and over the Norwegian coast, an area the allies did not mention.

Reuters heard a broadcast by the German-controlled radio reporting "considerable" damage to private homes in yesterday's raid by United States planes on Rouen.

This report said 80 bodies had been recovered.

Clearing weather favored the British flyers as they continued to clock-around joint British and American air blows at the continent.

A force of several hundred bombers, Halifaxes and Stirlings gave the German capital its heaviest raid this year and the 50th of the war.

Downing 900 tons of bombs, including many two and four-ton bombs, and left fires visible 120 miles away, returning to their bases.

Use Of 10-Acre Tract For
Victory Gardens DonatedMrs. Oda Scofield's Gift To Provide Plots for 80; Several
Group Projects Under Way.

Contribution of the first large tract of land to be used for Victory Gardens was announced today by the Marion Victory Garden Committee. Use of the tract was donated by Mrs. Oda Scofield, and will provide ground for 80 Marion families who desire to raise Victory Gardens is limited only by lack of land, the committee stated.

In addition to the hundreds of family gardens being planned, a number of local concerns are providing ground to be used by employees for garden plots, and in some sections neighbors are joining forces in a community garden project.

Announcement of the garden project, turned over to Victory gardeners by Mrs. Scofield, is a highlight of the Victory Garden committee's intensive drive to locate suitable lots for "landless" gardeners and to convert every available acre of idle land into a good producing unit, conducted during the last few weeks.

Lots 50x100 Feet
"Victory gardeners wishing to reserve one of these fine plots should get in touch with the committee spokesman for the committee said today. "Located in Scofield Heights at Windsor street and Duluth avenue, the plots are each 50 feet by 100 feet. The entire 10 acres has in the past proved quite fertile. Plowing and discing will involve no labor and little expense for individual gardeners, as each need contribute only \$1 to cover the total cost for each 50 foot by 100 foot garden."

While Mrs. Scofield's offer makes it possible for 80 Marionites to launch their Victory Garden, a good number of prospective gardeners will be able to raise part of their food requirements because of the generosity of single-lot donors who participate in this victory community project.

The ground, which is a large tract on the east side of the city, will be plowed by the company before the gardeners take over. Employees, both men and women, are enthusiastic over the plan and competition promises to be keen.

As in addition to trying for a bumper victory garden crop, the company is awarding prizes for the three best individual gardens.

Other Projects
At the home of Mrs. C. H. Isaly of Vernon Heights boulevard the family and a neighbor, Robert Heininger, will work out an extensive Victory Garden plan. With Mrs. Isaly as the supervisor, there will be six workers working at any time with a working schedule around the clock from 6 to 6.

Power Co. Project
Among the companies providing plots for gardens for employees is the Marion-Reserve Power Co. According to plans, five acres will be planted in potatoes, a few acres in corn and either beans or popcorn, for the gardeners as a whole, and each individual will be allotted a plot of ground ranging in size from 50x100 feet down, depending on the need or wishes of the "gardener," and these may be planted in anything the person wishes.

Meat Rationing Starts;
Blue Stamps LiberalizedWartime Belt-Tightening Arrives in Full Force Today as More
Food Is Placed Under Restrictions; Meat To Be Scarce.

By The Associated Press

WASHINGTON, March 29 — Wartime belt-tightening really hit home today as rationing of meat, butter and allied products began. New coupon costs on processed fruits and vegetables also went into effect.

The average American, who has been one of the world's biggest per capita consumers of meat could buy pork, beef, lamb or mutton today only on the 16 points of the red A stamps in his No. 2 ration book.

Sixteen points will buy two pounds of steak this week—it is available—but most people will want to use some of those points to buy other cuts of meat and also butter, lard, cheese, vegetable shortening, canned fish and salad oils.

Meal-planning of the housewife were doubly tough today because many of the coupon values of processed foods that she tried so hard to learn during the last four weeks were changed this morning, some up and some down.

On the bright side, she could buy prunes, raisins and other dry fruits and apple juice without coupons. She should also buy other fruit and vegetable juices and dehydrated soups at reduced coupon costs.

But the old standby of canned baked beans was higher in point value, and other increases made it more difficult to buy canned fresh lima beans, colts, and canned applesauce, fruit salad and cocktail, peaches and pineapple.

Kitchen Situation
Summarizing the kitchen ration situation in effect today, the coupon situation was as follows:
Meat, cheese, canned fish, butter, lard and other edible fats and oils—this week use only red A stamps in Ration Book No. 2.

Chart showing revised point values on processed foods appears on Page 7.

This provides 16 points per person to be spent interchangeably for meat and the other items in this group.

The A stamps may be saved, if desired, and used any time through April 30 along with other red stamps becoming valid each week in that period. Expiration date of fifth-week stamps has not been fixed yet.

Processed fruits and vegetables, canned soups and baby food—through Wednesday use blue A, B or C stamps in ration book No. 2, and at any time until the end of April also use blue D, E and F stamps. Note new chart of point values effective today.

Sugar—Stamp 12 in book No. 1 good for five pounds through May 31.
Coffee—Stamp 25 in book No. 1 good for one pound through April 25.

Problem Complicated
The problem of buying meat today also was complicated by the fact that many stores probably had none on hand.

Besides the scarce and uneven supplies of meat that caused rationing in the first place, the situation was aggravated last week because thousands of people bought up all the hams, roasts and other cuts in sight for a last fling at unrationed eating. CPA expects quick restocking of retail counters, but it will take time before the supply throughout the entire country is stabilized.

In the meantime, game, poultry and fresh fish are unrationed. All frozen meats, soups and cream (milk, cereals, fresh fruits and vegetables, bread and other bakery products, corn syrup, figs, jams and jellies, molasses, olives.

Marion Outlook for Meat Supply
Favorable, Is Report from Dealers

There may not be the variety of cuts that Mr. and Mrs. Marion have been accustomed to choose from in the past but there will be plenty of meat for all, is the general opinion of meat dealers today. Dealers are enjoying a business breathing spell and are busy adjusting counters and cases preparatory to caring for a normal run of business "from now on."

Patrons who either bought only a normal supply for Sunday dinner or lost out completely in week-end purchasing were on hand today but for the most part the call was for butter and lard. Some of the local dealers sold out of meat Saturday and closed their stores as early as 6 p. m. while others had meat on hand when the regular closing hour arrived.

With the exception of bacon, which for the most part was limited to "so much to a customer," patrons could purchase what meat they wanted as long as it lasted Saturday. One dealer, who did not open until noon Friday and Saturday, had plenty throughout the day and evening.

German Attacks in Donets
Valley.

By The Associated Press

MOSCOW, March 29 — The Red army fought on in the mud during the night breaking up two German efforts to crack its line along the upper Donets river and capturing four more villages in the slow drive toward Smolensk, the Russians said today, but the once flaming battle line apparently had subsided temporarily to a series of local and inconclusive engagements.

The mid-day communique reported there were "no material changes on the fronts" and was devoted almost exclusively to isolated engagements involving relatively small forces.

In the push toward Smolensk, which had carried to within 32 miles of the great German city, the Russians reported one village was taken by the column which has been driving westward from Vyznina and three more by the column, which for weeks has been moving southward from Bely, about 85 miles to the north-east of Smolensk.

The Germans attempted to storm back into positions they had lost in earlier fighting south of Bely, but the Russians said the attack was frustrated.

There was no mention in the communique of fighting near Sevsk, a town 170 miles northeast of Kharkov, which the Germans claimed yesterday to have captured. The Germans said the town was taken after a bitter three-day fight.

The Russian successes on the Donets river line were achieved after the Germans had succeeded in forcing back the Russian line in one sector in the middle reaches of the river, it was reported.

1,439 ACRES LEASED
AT WAR PLANT SITERented for \$12,116; More
Acreage Available.

Farmers from Marion, Bucyrus, Delaware, Upper Sandusky and Morral took yearly leases during the past week on government-owned agricultural and grazing lands at the Scioto Ordnance plant, the land acquisition office said today.

The total amount of land leased was 1,439 acres and the yearly rental will amount to \$12,116. An additional 3,500 acres remain to be placed under contract this week and all parties interested in acquiring additional acreage for farming or grazing purposes this year are requested to ask for the land acquisition section at the main gate, gate No. 1, at the Scioto Ordnance plant at their earliest convenience.

Contracts can be executed at once upon acceptable offers and possession given immediately.

AXIS TROOPS RACE
NORTH TO ESCAPE
U. S., BRITISH TRAP

By The Associated Press

The Mareth line defenses of Marshal Erwin Rommel in southern Tunisia have collapsed under the smashes of Gen. Sir Bernard L. Montgomery whose British Eighth army has broken through on a 25-mile front leaving only ragged edges of resistance at either end, allied headquarters dispatches announced today.

With the Germans and Italians rapidly withdrawing their 80,000-man army from southern Tunisia, a race appeared to be under way for Gabes, 20 to 30 miles to the north, where the Germans were reported plowing up their artillery.

Set to spring a trap at half a dozen points along a narrow coastal corridor of axis retreat were American, British and French spearheads pointed to the sea.

Scattered pockets of axis resistance were left behind, but Gen. Sir Bernard L. Montgomery's infantrymen were reported mopping them up one by one as allied aerial squadrons joined ground forces in powerful attacks along the axis escape corridor.

The Mareth line broke on a 25-mile front at three points, ranging from 20 to 30 miles from the axis supply port of Gabes.

Beast by powerful forces forward and the desert flanking column at El Hamma in his rear, Rommel yielded Mareth, Matmata and Toujane at the northern end of the Mareth fortifications yesterday and dispatches said every strong point of that 40-mile-long little Maginot line was in allied hands.

Taken in Fierce Battle
They were wrested from the enemy in some of the fiercest combats of the war—combats in which more than 6,000 German and Italian soldiers were captured. Thousands of tons of bombs had been loosed upon the line by day and by night to supplement continual heavy artillery barrages.

Dispatches from Cairo said it was announced officially axis air fields protecting Gabes were being plowed up, which would be a sure sign of retreat, intended to abandon that area to the allies.

(Since air protection would be necessary for a Dunkerque escape by Rommel's army through Gabes, any further withdrawal probably would mean he intended to attempt a fighting retreat for 200 miles or more up the coast to a junction with the command of Col. Gen. Jurgen Von Arnim in the Tunis-Bizerte region.)

Threatening his escape corridor for a stretch of 100 miles were the United States troops of Lieut. Gen. George S. Patton Jr., pushing toward the coast from newly captured Fondouk, Maknassy and El Guetar.

"The attack which was launched on the afternoon of March 28 on the enemy's strong position south of El Hamma has forced the enemy to withdraw from the Mareth area," the communique said in opening its account of the victory.

U. S. Troops Advance
The southern front developments were coupled with allied gains both at the center and in the north.

United States troops made progress yesterday through difficult country east of El Guetar in one movement of the push toward the axis escape corridor across the Mareth line.

In the north in the Djebel Aboud area (some 50 miles southwest of Bizerte) local advances were made and a considerable number of prisoners were taken.

Falling back toward the area of Gabes, 25 miles northwest of the village of Mareth, Rommel's troops were bombed and shot up in smashing attacks by allied air forces.

The collapse came on the night of Gen. Sir Bernard Montgomery's offensive against the mountainous Marethline positions. It was the same time that Montgomery's men, artillery and bombers needed to break through Rommel's first line at El Hamma, 150 miles farther east.

Reports from the battlefield said Rommel was pulling back in an apparent last-minute effort to avoid the trap set by British and United States troops in his rear from El Hamma, El Guetar, Maknassy and Fondouk.

5,000 Men Captured
The communique reported that more than 5,000 axis soldiers had been captured since the opening gun of the Mareth-line offensive was fired March 28.

The attack upon El Hamma which cut to 15 miles the axis corridor past Gabes, was made with "the powerful and very ef-

fective support of our air forces," the communique said.

It reported the enemy lost heavily in tanks, guns, and motor transport as well as men.

"Many Germans were taken prisoner," it said. "Fierce fighting continued in this area during March 27, with our troops making good progress."

"The whole of the strong organized defense of the Mareth positions are now in our hands and our troops on March 28 continued Mareth, Toujane and Matmata."

DAVIS IN CAPITAL
TO START FOOD JOBSt. Louis Banker Confers with
Officials and President.

By The Associated Press
WASHINGTON, March 29 — The government's war-time rationing program went into high gear today as the food shortage problem held the attention of official Washington.

From now on, ration coupons—along with money—will be needed for purchases of meat, butter and allied products. These foods were placed on the ration list which already included processed fruits and vegetables.

In numerous stores throughout the nation the meat shortage was accentuated by buying "runs" and hoarding. Many retailers closed Saturday because they lacked supplies.

Charles C. Davis, President Roosevelt's new food administrator, continued a series of conferences with government officials and farm leaders in agricultural labor and machinery shortages.

Davis, who has been serving as president of the Federal Reserve bank at St. Louis, arrived in Washington last night. He is scheduled to discuss the food situation with Mr. Roosevelt tomorrow. Davis also is expected to confer shortly with the senate appropriations committee for a discussion on proposals for recruiting labor for farms.

On Capitol Hill, meanwhile, the house prepared to wind up general debate today on the new income tax bill. Rep. Knutson (R., Minn.), a leading advocate of the so-called skip-a-year plan, predicted the Republican minority would go "right down the line" for the proposal, relating any compromise.

Knutson expressed the belief the Democratic leadership would abandon the ways and means committee's no-absenteeism measure and support the plan presented by Rep. Forand (D., Ill.). This proposal would cancel 1942 tax liability on the first 19 percent, six percent normal and 13 percent surtax.

The Ruml plan, suggested by Beardsley Ruml, New York bank president, would cancel 1942 tax liability and place taxpayers on a current basis. The proposal has been denounced by President Roosevelt and the administration leadership in congress.

Poll Shows Many Women Willing To Take War Jobs

By GEORGE GALLUP
Director, American Institute of Public Opinion
PRINCETON, N. J., March 26.—A poll taken by the American Institute of Public Opinion shows that there is an acute shortage of workers in war industries in many areas of the country. The Institute study made during the last few days indicates that there are a great number of women who are ready and willing to take war jobs when they are personally asked to do so and when the need is fully explained.

Because the War Manpower Commission is particularly interested in recruiting women in the same areas in which war industries are located, the Institute continued its questioning to women living within a 25 mile radius of a war plant.

Questions were put to women 21 years of age or older, both those who are married and those who are single, and to women who are now employed as well as to housewives.

Many Willing To Work
After learning the marital and employment status of women in these areas, as well as whether or not they had children under ten years of age, field representatives of the Institute put the following question to them:

"If you were offered a job in a war plant today, would you take it?"

On the basis of findings, approximately 8,800,000 women would take a job in a war plant today. If they were personally asked to do so.

To this total can be added 2,300,000 married women, with children under ten years of age, who would be willing to take war jobs today if, at no expense to themselves, provision were made for the care of their children.

Counting this latter group of married women who would take jobs if their children were cared for, about 11,000,000 women in war plant areas would take jobs today if they were asked to sign up for war work.

Difficulties in Recruiting
It should be emphasized, of course, that labor shortages are to be found only in certain areas. In many areas, there are no shortages. And the difficulties involving the moving of women from one area to another are quite obviously manifold.

Moreover, the actual number of women who might be recruited from among those actively interested in war jobs would be further reduced considerably by the nature of the work required in some plants by the hours of work, by the wages offered, and by the amount of training required for certain jobs.

When all of these factors which would operate to reduce the number of women actually available are considered, it would still appear that a minimum of two or three million women could be recruited at this time.

In war plant areas there are an approximate total of 33,000,000 women at the present time, according to estimates based on census data. Of this number, it is estimated that about 12,400,000 are now employed, 20,600,000 are unemployed.

Institute findings indicate that

SOLDIER HAS POLISHED NAILS: NEEDS 'EM IN JOB

He International News Service.

BAINBRIDGE, GA. — It took some high persuasive arguing, but an Army Air Corps corporal finally convinced a store clerk and several other soldiers that his highly polished fingernails were necessary in his work.

The incident occurred when the corporal was making a purchase and passed the clerk a bill. "Oh, my dear," cooed the clerk. "What a lovely manicure you have!" Several other soldiers were standing close by, and began staring at the corporal. The corporal blushed as eyes became fastened on his shining nails—as neatly polished as a co-ed's.

"Look you guys," bellowed the corporal. "In my work you gotta have it, see? It's protection." All the other soldiers lifted their eyebrows skeptically. The corporal, however, finally convinced them.

The corporal said that most of the men in the Bainbridge post photo section protect their nails with polish to keep developing fluids from turning them black.

"Last Roundup" Dinner Honors War Plant Group

A dinner "Last Roundup" given at Hotel Harding Friday night commemorated the combined forces of Holbrook and Root and Hunkin-Conkey Cigarette companies which are completing their contracts at the State Ordnance Plant soon. The dinner was attended by employees of the two companies in the plant construction.

George Stiglmeyer, master of ceremonies, introduced Major P. S. Irvine and Capt. E. Paul Anderson, who were in Marion, Ohio, on business. Major Irvine addressed the group. Dinner music was furnished by Ken Landon and his Aristocrat.

Mrs. A. E. Landon, a lady by Mrs. Margaret McDonald and Mrs. Joan Smith, were in charge of dinner arrangements.

Former Resident of Nevada Dies
Special to the Star

NEVADA, O., March 29.—News of the death of James H. Johnson, former resident of Nevada, came in a telegram received here today. The message did not state the time or cause of his death. His daughter, Miss Helen Johnson, was expected to arrive this afternoon with his body.

He was a resident of Nevada 40 years but had made his home in Huntington Park, Calif., the last 15 years.

Rev. Edward Orinson will conduct funeral services at 9:30 a. m. Wednesday at the Bender and Lucas funeral home. He will be buried in the Nevada cemetery.

Production Soldiers of the Farm Front

Much has been said about the workers in war plants being the Production Soldiers of the home front. There is another line of production that will be equally as important this year—perhaps more so.

The real Production Soldier this year will be producing food. That readily may be the determining factor before this war is won—and communities like this will be the centers of such activity.

Preliminary work should now be under way, whether your effort will be spread over 400 acres—or confined to a back yard garden.

YES WE STILL HAVE
Plenty of beef at Wise's after last week's rush. It will pay you to buy better beef now since you use rationing points. Wise's buy better cattle, that's why we have better beef. Wise's Super Market, 879 E. Center.—Ad.

"Is it true, what they say about War Bonds?"

THEY SAY— "Hey, Bill, I heard that in order to pay for the planes and tanks and guns America needs for Victory, each of us should be putting at least 10 percent of our pay into War Bonds."

IT'S TRUE— "That makes sense to me, Joe. Those things cost plenty of dough and we've got to have 'em!"

THEY SAY— "Sure, I know that. And I've got a hunch our soldiers are going to need more and better equipment than any fighting men ever got before!"

IT'S TRUE— "You bet they will! And here's the way I look at it, Joe. Us guys who can't tote a gun or fly a plane can at least do our share by helping to pay for the things our fighters need!"

THEY SAY— "Yeah, you're right, Bill. But we're really not paying that money to the Government, either. It's just a loan to Uncle Sam until the Bond matures."

IT'S TRUE— "That's right as rain, Joe! You get it back—with interest. Every 3 bucks you put in brings you 4 when the bond matures!"

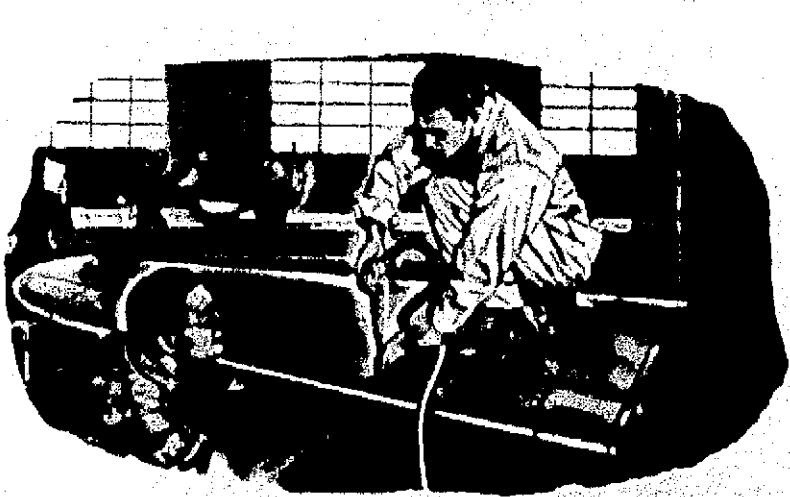

THEY SAY— "It would be hard to beat that as a sweet investment, wouldn't it? And when you lend your dough to Uncle Sam, you know he'll make good."

IT'S TRUE— "Say! War Bonds are better than dollar bills in your pocket, Joe! Not only is each one an ironclad promise to pay, backed up by the strongest Government in the world—but it makes more money for you all the time!"

THEY SAY— "Supposing a fellow loses some of the War Bonds he buys—or somebody swipes 'em. I guess you want me to believe Uncle Sam will pay off on 'em just the same."

IT'S TRUE— "He sure will, Joe! Every War Bond you buy is registered in Washington—either in your name, or your wife's name, or whomever you pick. Nothing can happen to prevent your getting that money back—with interest."

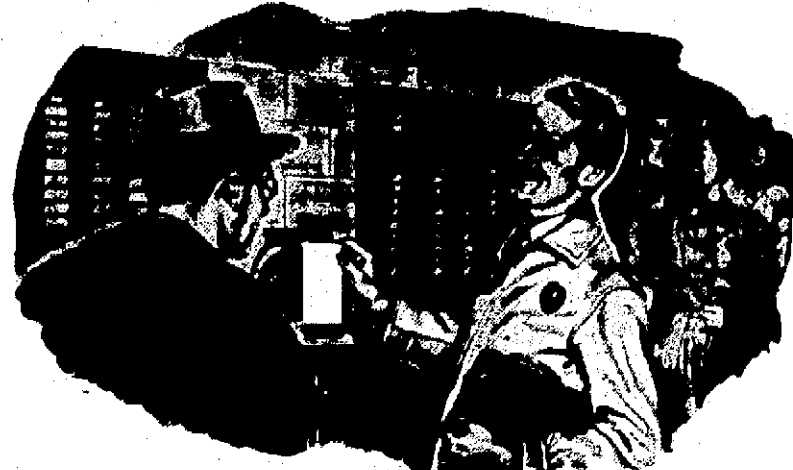

THEY SAY— "One of the boys in the forge shop was trying to tell me that if everybody buys a lot of War Bonds, it helps keep prices down."

IT'S TRUE— "He's right, Joe. You don't have to be a brain-truster to figure that out. Here's how it works: Now that the United States is making war goods instead of cars and radios and all the things people ordinarily buy, there aren't so many of those peacetime goods kicking around in the stores. So, if people with a lot of cash in their jeans start bidding against each other to get those scarce goods, up go the prices!"

THEY SAY— "My wife has the idea, now that I'm earning more money, that War Bonds should be the Number One item on our budget—sort of a savings plan for us and the kids."

IT'S TRUE— "She's a smart woman, Joe. You're going to need a lot of things when this war is over. And there's no better way on earth to get the money for them than to save regularly now—by buying War Bonds."

THEY SAY— "Must be a lot of people owning War Bonds by now, aren't there, Bill?"

IT'S TRUE— "A lot of people? Listen! Fifty million of 'em have bought War Bonds—and I'm one of 'em. Fifty million Americans can't be wrong!"

THEY SAY— "Our plant has a Pay-Roll Savings Plan. Sounds like a handy way to buy War Bonds. I'll sign up tomorrow for 10 percent. Hmm—maybe I can make it more than that. I'll see."

IT'S TRUE— "Sure, our plant has the Pay-Roll Savings Plan. So do lots of others. And people who work in plants where the plan hasn't yet been installed would be awfully smart to get one started. They ought to mention it to their union head, or foreman, or plant manager. Believe me, Joe, you're not making any mistake when you put every dollar you can spare into War Bonds—and then a little more!"

CROWN NEW CHAMPS IN RIFLE MATCHES

Troy Tool Maker and Chilli-cothe Shooters Win.

By The Associated Press
COLUMBUS, O., March 29.—The Troy Tool Maker and Chilli-cothe Shooters won the rifle championships today by defeating the Cleveland Indians 6-0 in a game played at the Cleveland Stadium.

George Washington picked up a 1003 of a possible 1100 score to annex the men's title from a field of more than 200 competing in seven regional tournaments, while the women's crown went to Mrs. Anna Lou Barker who scored 234 of 300.

Mrs. Barker is the only woman ever to win the national junior title in competition with men shooters. She did it two years ago at Camp Perry.

Washington won the off-hand championship with 191 of 200, and topped the three position any-ways event with 296 of 300, two points better than his own national record. In the aggregate race, Forest Lawrence of Canton was second with 1056.

Mrs. Barker won the women's title by a single point, posting 61 Mrs. Dorothea Kelly of Akron, only woman ever to win the state crown in open competition.

Other winners included Tewa trophy (30 shots prone)—Loren Allen of Springfield 300, plus 67 additional 10's three position.

Ohio Conference To Play Service Students
By The Associated Press
COLUMBUS, O., March 29.—The 19-college Ohio athletic conference had before it today a recommendation from its coaches and athletic directors that transfer and military students be permitted to play on varsity teams without observing the present "year of residence" rule.

The managers also voted to abandon the annual golf tournament for the duration of the war, and to transfer the Big Six track meet from Muskingum to Baldwin Wallace.

O. S. U. SWIMMERS LOOK TO NEW YORK

Pepper's Stars Seek A. A. U. After Taking N. C. A. A.

By The Associated Press

COLUMBUS, March 29.—With the western conference and N.C.A.A. swim championships safely tucked away, Ohio State University's talent-laden tank team looked forward today to making it a grand slam in the national A.A.U. classic in New York this week-end.

Coach Mike Pepper's performers won "going away" in the national collegiates Saturday, capturing five individual championships and piling up a team total of 81 points against 47 for second-place Michigan.

Michigan is the only university ever to annex the Big Ten, NCAA and AAU championships in a single campaign, the Wolverines forcing the trick in 1940.

Ohio boasts the only double-winners in the National Collegiate, Frank Dempsey taking the one and three-meter diving titles for the second straight year and Keo Nakama, Hawaiian flash, winning the 410-yard and 1,500-meter free styles. Bill Smith, another Hawaiian who holds all the free style records from 100 yards to the mile, gave Ohio its fifth title by taking the 220-yard event.

Nick Culp Named Red Bird Manager

By The Associated Press

COLUMBUS, O., March 29.—Henry Nicholas Culp, better known as "Nick" or "Hopper-Dipper," will take over this year as manager of the Columbus Red Birds, the club with which he played from 1932 through 1936.

President Al Binastet of the little world champions said Culp would succeed Eddie Dyer, who has been named to supervise the Cardinals-owned AA clubs, Columbus of the American association, Rochester of the International, and Sacramento of the coast league.

Culp managed the Pocatello, Idaho, club a year ago.

SNATCHES OF SPORTS

By HUGH FULLERTON, JR. Associated Press Sports Writer

NEW YORK.—Reporting on the basketball season at the Jacksonville, Fla., naval air technical training center, Yeoman

Carolus G. Anderson says that some 1,500 sailors and marines competed on 150 intra-mural teams and about 500 more played on outside courts.

While the south is no basketball hotbed," he adds, "the Navy is doing its part to scatter seeds for future growth."

Monday Matinee.—The Hassett family of the Bronx (Buddy of the Yanks and the Navy, Billy of Georgetown and Danny of Manhattan) is coming up with

another athlete. . . . Their dad says that 13-year-old Tommy is the best of the bunch, both at sports and singing.

Treton, N. J., fair will get the harness racing futures that were left homeless when the Army took over the Reading, Pa. fair grounds.

Too Much Middleweight.—When Jimmy Conzelman, the Cicero of the Chicago Cardinals, made a speech for the Great Lakes goys recently, Lieut. Commander Russell J. Cook presented him a shiny belt of the kind that Nat Fleischer does out to boxing champions. . . . It seems that when Jimmy was at Great Lakes during the other World War he had won the middle-weight title of the status.

Service Dept.—The newly-arrived WAACs at Fort Sill, Okla., are likely to keep the regular soldiers busy defending their athletic laurels. The group includes First Leader Eve Evans, who was city tennis champion of Portsmouth, O., had a 180 bowling average and was an all-star basketball player in the 1942 tri-state tournament as well as several other athletically inclined girls.

County Sales Tax Total Registers Rise for Week

Amount for State, However, Shows Drop.

Sales of prepaid tax receipts in Marion county for the week ended March 13 amounted to \$6,240.82, while last week's collection for the like period was \$5,563.80, a gain of 12.1 per cent this week.

Collections to date were \$66,062.53, last year \$61,028.11.

Throughout the state sales slumped \$2,430.80 under last year for the week, a report from the office of Don H. Elbright, treasurer of state, showed. The total figure for the week ended March 13 was \$965,099.43, last year \$966,530.23.

Collections in counties around Marion for the week ended March 13 and for collections to date with figures for the last year in parentheses included:

Crawford, week ended March 13, \$4,114.27 (\$3,797); collections to date, \$36,721.53 (\$38,210.55).

Delaware, week ended March 13, \$1,382.01 (\$1,624.53); collections to date, \$16,786.43 (\$17,902.82).

Hardin, week ended March 13, \$2,643.51 (\$1,039.93); collections to date, \$22,619.25 (\$20,633.53).

Morrow, week ended March 13, \$434.03 (\$516.77); collections to date \$4,679.66 (\$5,355.27).

Union, week ended March 13, \$1,043.76 (\$1,090.47); collections to date, \$12,138.89 (\$13,148.01).

Wyandot, week ended March 13, \$1,529.20 (\$1,065.24); collections to date, \$13,894.75 (\$14,600.22).

While salable arrivals at outside markets during the week ran slightly ahead of a week earlier, shipments to the local yards were lighter. Receipts on Thursday were 25 per cent under advance estimates, and 30 per cent lower yesterday.

The market opened and closed the week with prices near the highest levels of the season. The top on choice cutters last Monday was \$15.00, or within a dime of the seasonal peak, establishing on March 4. The \$16.00 top paid on that date equalled the highest level since October 1920. Yesterday the top was \$15.95.

Prices declined slightly with increased arrivals on Tuesday and the downward tendency continued Wednesday when the top declined 15 cents and average costs dropped from \$15.73 to \$15.60.

Livestock traders said producers resisted the downturn with sharp, but curtailed receipts the following days and quotations rebounded. The range for good and choice medium and heavyweight butchers held within extremely narrow limits.

Meanwhile, packers reported they were in a position to handle just about as many hogs as could be transported to slaughter centers.

Cattle followed a similar trend, although not as marked a decrease. The steer top started around \$17.50 and on Wednesday reached \$17.60. The following day prices declined but there were no strictly choice fed steers or yearlings in the run. Demand for stocker and feeder cattle continued firm.

Lamb were slower but prices held fairly steady with a few choice fed wooled westerns sold at \$16.75. Most good to choice heads averaged between \$16.00 and \$16.50 throughout the week.

GROWERS STILL HOLD HOGS FROM MARKET

Arrivals Slow Despite Threat of Ceiling.

By The Associated Press

CHICAGO, March 27.—Hog producers apparently continued to hold back swine from market today despite threats of ceiling prices on live animals and in the face of the exceptionally high potential demand for meats with the coming of rationing for the general public.

While salable arrivals at outside markets during the week ran slightly ahead of a week earlier, shipments to the local yards were lighter. Receipts on Thursday were 25 per cent under advance estimates, and 30 per cent lower yesterday.

The market opened and closed the week with prices near the highest levels of the season. The top on choice cutters last Monday was \$15.00, or within a dime of the seasonal peak, establishing on March 4. The \$16.00 top paid on that date equalled the highest level since October 1920. Yesterday the top was \$15.95.

Prices declined slightly with increased arrivals on Tuesday and the downward tendency continued Wednesday when the top declined 15 cents and average costs dropped from \$15.73 to \$15.60.

Livestock traders said producers resisted the downturn with sharp, but curtailed receipts the following days and quotations rebounded. The range for good and choice medium and heavyweight butchers held within extremely narrow limits.

Meanwhile, packers reported they were in a position to handle just about as many hogs as could be transported to slaughter centers.

ACT TO ABOLISH COUNTY DITCH FEES

Would Eliminate Extra Pay for Commissioners

The Associated Press
CINCINNATI, March 29.—A bill to abolish the \$5 fee which Ohio county commissioners are entitled to for drainage ditches will be introduced in the house of representatives today.

The legislature increased the county commissioners' salaries in 1927. County Commissioners of Ohio agreed to waive fees received for drainage ditches and for sewer projects.

When the legislature increased the county commissioners' salaries, the measure was opposed by some county commissioners. It would have increased the sewer and water fees as well as the ditch

fees. The American majority, however, at Elkhart, Ind., which identifies it as a non-partisan organization, to focus public opinion on public affairs.

The bill said the fees now are collected by commissioners of the 88 counties.

The increase, ranging from \$14 a year to \$4,025. They now range from \$1,200 to \$6,000.

The legislature enters its second week. The senate leadership is under the approval of a measure temporarily students to work in war plants and on farms without losing any of the state subsidies.

The week also may see development of an agreement on the bill to increase the working hours of women and minors. The measure has been stalled since 13 Republican senators insisted nearly two weeks ago that the maximum be fixed at 48 hours a week instead of the proposed 52.

Air Raid Class Couple Exchange Vows

Session To Be Opened Tuesday
An institute to train instructors for housewives' courses in Air Raid Protection, scheduled for Tuesday, Wednesday and Thursday, will be held in the Marion Business College rooms on West Center street instead of at the Y. M. C. A. as first announced, sponsors of the three-day school said today. The change has been made to provide instructors with the use of blackboards and desks which will provide comfortable writing facilities for those taking the course.

The school will open at 9:30 a. m. Tuesday with registration. Miss Margaret E. Baker, director of Women Volunteer for Defense and Service for the Ohio State Council of Defense, will be in charge, and instructors will be Mrs. Sam Arnold of Peninsula, O., and Mrs. Elizabeth Linard of Bellaire.

Classes will be held each day from 9:30 a. m. until 4 p. m. with luncheon hours from 12 m. to 1:30 p. m. Studies taken up will include "Civilian Defense," "Incendiary Bombs," "Fire Hazards in the Home," "Demolition Bombs," "Care of Children and Panic Prevention," and scores of other topics.

Earl Ruhlman, chief air raid warden, will discuss the duties of an air raid warden and there will be demonstration of fire extinguishers and other equipment. Mrs. A. W. Bacon, director of Civilian War Activities, is in charge of plans for the institute.

MILL SCRAP RESERVE CAUSES UNEASINESS

Supply Considered Less Than Safe Amount.

By The Associated Press
CLEVELAND, March 29.—The scrap supply supports steel making at near-capacity rates but some uneasiness is expressed because "mill reserves" are less than what is considered a safe margin and current receipts in some areas are below consumption, the magazine Steel reported today, adding:

"Continued use from stocks is reducing the margin of safety. A factor in the situation is continued lack of manpower for yard preparation. Some observers fear a repetition of last summer's shortage. In the Chicago district, according to the war production board, only three of the 22 steel-making plants have 30 days' supply in stock.

National ingot production fell one-half point last week to 99 per cent.
